1. 하기의 링크에 접속

링크 : <https://cadcertification.sw.siemens.com/nx-index/>

The screenshot shows the Siemens NX Index page. At the top, there is a navigation bar with the Siemens logo, links for 'Blogs', 'Contact', and 'Try Now', and a search bar. Below the navigation bar, there are links for 'Certifications', 'Log In', and 'Register'. The main content area is titled 'Getting Started' and contains a paragraph: 'Before you begin, it is very important that you review the information on this page.' Below this, it says 'Please follow these steps to get started (links will open in a new tab):' followed by a numbered list of four steps. Step 1 is 'Register for an account' (highlighted in red) and mentions 'log in' (highlighted in red) and 'How to Register Guide' (highlighted in red). Step 2 is 'After registering, you must complete your profile.' Step 3 is 'After completing your profile, read the Certification Exam Guides for useful and time savings tips on taking your exam.' Step 4 is 'After finishing these steps, you can use the main navigation bar to find a certification exam and begin.' Below the list, there is a 'NOTE' section with additional instructions.

Getting Started

Before you begin, it is very important that you review the information on this page.

Please follow these steps to get started (links will open in a new tab):

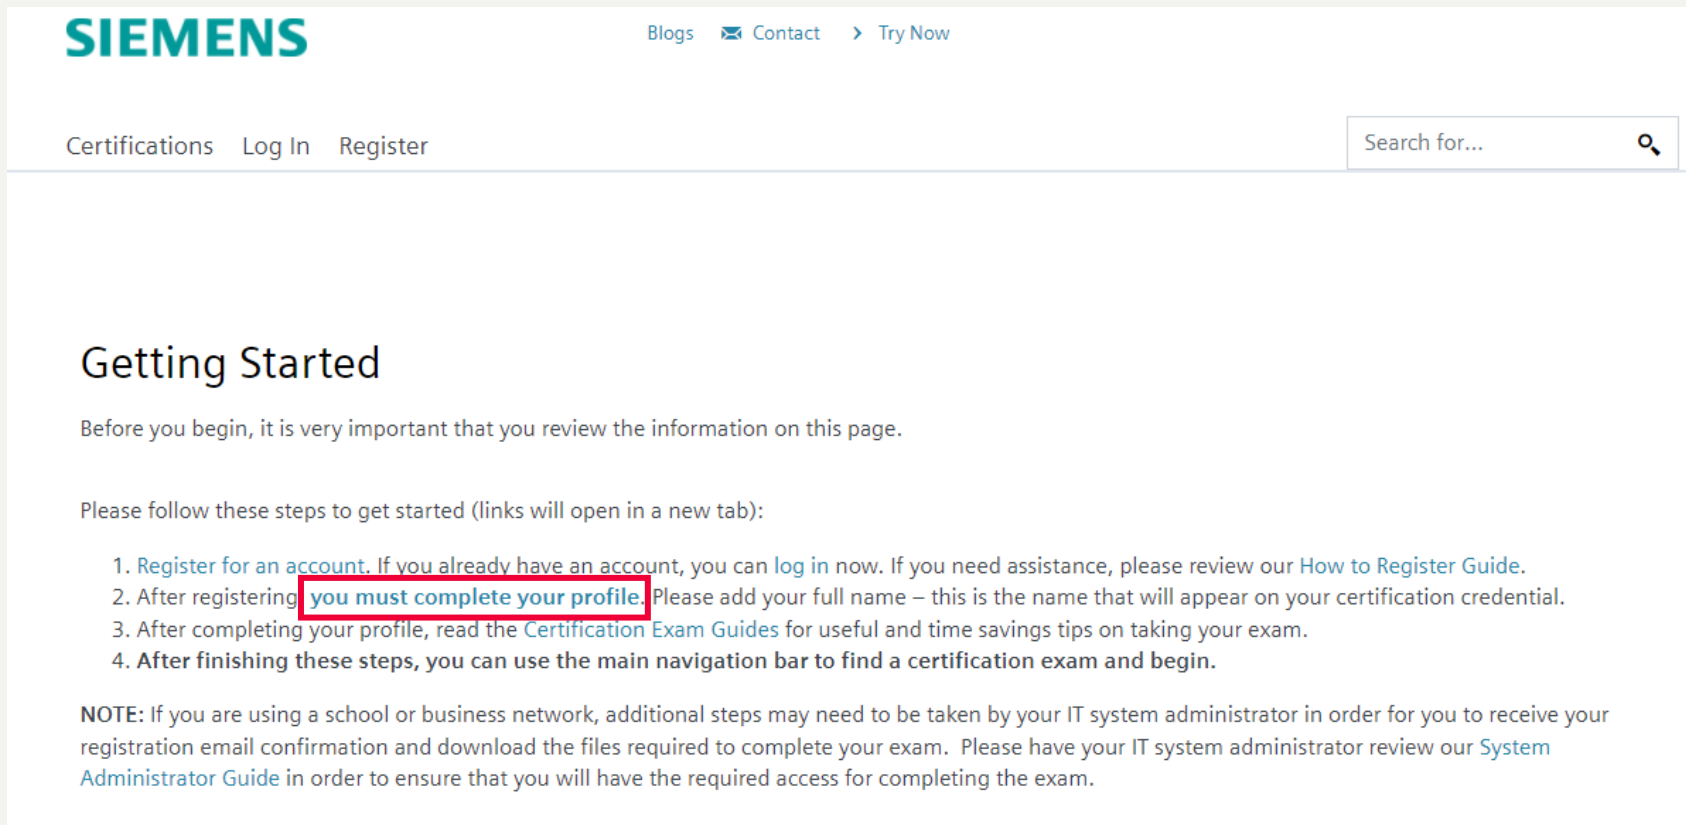

1. **Register for an account**. If you already have an account, you can **log in** now. If you need assistance, please review our **How to Register Guide**.
2. After registering, **you must complete your profile**. Please add your full name – this is the name that will appear on your certification credential.
3. After completing your profile, read the **Certification Exam Guides** for useful and time savings tips on taking your exam.
4. After finishing these steps, you can use the main navigation bar to find a certification exam and begin.

NOTE: If you are using a school or business network, additional steps may need to be taken by your IT system administrator in order for you to receive your registration email confirmation and download the files required to complete your exam. Please have your IT system administrator review our **System Administrator Guide** in order to ensure that you will have the required access for completing the exam.

Additionally, negative answers cannot be accepted. If your answer is a negative number, please enter it as a positive, so:

- > -94 – Remove negative indicator becomes
- > 94

Failure to follow these guidelines will result in your answer being marked incorrect.

Controls

1. You will see a "Save Progress" button on the right-hand side (under the timer) while taking an exam. This option saves your current answers, but does NOT submit them for grading. **Save early and often, such as after each question you complete.** This will avoid any potential loss of answers.
2. You will see a "Complete Exam" button at the bottom of the exam, which will submit your answers for grading. **Only complete the exam when all questions have been completed, as this can't be undone.**
3. You will see a "Start Over (This Will Reset Your Progress)" button at the bottom of the exam. **This allows you to re-take the test if you do not pass initially. IT WILL RESET THE QUIZ, AND YOU WILL LOSE ANY PROGRESS AND STORED ANSWERS.** You will then see the same certification exam with a new set of questions and will have to start over. There is a confirmation prompt so you won't accidentally click it.

Downloads

Some questions will require you to download .zip files, which contain files relevant to that specific question. Be sure that you are able to download .zip files from Siemens on your network (some school and business networks may not allow it) and that you are able to open .zip files.

Test Download

To open .zip files, we recommend using as [the built in Windows tool](#), [the built in MacOS tool](#), or a third-party tool like [7-Zip](#).

Time Duration

For each exam, you will have a set time limit that will be declared before you begin. A timer will be visible when you are taking the test on the right-hand side. This timer will count down from when you begin the test.

주의사항들을 반드시
잘 읽어주세요.

IN PROGRESS

You spent a total of 2 minutes in the exam of the allowed 180.

Result: User failed.
Score: 50%
Minimum score required: 70%

Unfortunately you did not meet the requirements for certification. Please review the exam material [here](#). When you are ready you can use the Reset Progress button to try again.

Reset Exam

총 180분이 주어지며,
9문제중 7문제 이상 맞춰야 Certi. 를 획득합니다.

만약 Failed 했을 경우, Reset Exam을 클릭하여
재도전 할 수 있습니다.

추가 정보

시험에 최종 합격하면,
좌측의 Digital Badge 형식의
Certification이 발급됩니다.
(PDF 파일 형식)

기간은 3년간 Valid 합니다.

I 기타 참고사항

1. NX, NX Academic Bundle Package, NX Student Edition 사용 가능 (단 NX 1899 이후 버전만)

* NX Student Edition 과의 차이

NX Student Edition 이 상업적 작업에 사용되는 것을 방지하기 위해 워터마크가 인쇄 및 플롯된 데이터에 추가됩니다.

NX Student Edition 에서 생성된 파트 파일은 NX 의 상용 버전에서는 사용할 수 없지만, NX Academic Bundle Package 에서는 사용할 수 있습니다.

CAM 데이터는 Post-Processing 에 사용할 수 없으며 표시되는 공구 경로 정보 출력의 정밀도가 제한됩니다.

2. 숫자를 입력하라는 메시지가 표시되면 정수로 숫자만 입력해야 합니다. (십표, 마침표, mm, 단위 등은 입력하면 오답이 나옵니다.)

3. 시작하면 타이머가 시작되고 60분 진행 후 급한일이 있어서 종료, 나중에 커도 120분이라는 시간은 그대로 남아 있습니다.

4. 타이머가 끝나면 저장된 답변까지만 제출됩니다.

Thanks
