

THE UNIVERSITY OF TEXAS AT ARLINGTON

Materials Science and Engineering

501 West First Street, 329 Engineering Laboratory Building
Arlington, Texas 76019-0031

Postdoctoral Research Associate Position in Nanobiotechnology

The Yum Research Group in the Department of Materials Science and Engineering at the University of Texas at Arlington seeks a highly motivated postdoctoral researcher in the area of nano-biosensors for biomedical applications. The successful applicant must have completed a Ph.D. in Materials Science, Chemical Engineering, Chemistry, Bioengineering, Mechanical Engineering, Biophysics, or a related discipline. Research experience in nanotechnology, nanomaterials, nanosensors, biosensors, biomedical engineering, molecular biology, molecular synthesis, biophysics, and/or optics is desired. The postdoctoral researcher will be working in a multidisciplinary group of researchers in materials science, nanotechnology, bioengineering, molecular biology, and biomedicine.

Review of applications will begin immediately and will continue until the position is filled.

Interested applicants should send a CV with a list of publications to Professor K. Yum at kyum@uta.edu.
