

A vertical collage of icons representing various fields of science and technology. The icons, from top to bottom, are: an atom with a central nucleus and three elliptical orbits; a square microchip with numerous pins; three interlocking gears of different sizes; a stylized airplane in flight; a humanoid robot with a boxy body and antennae; a flame or fire icon; another square microchip; and a DNA double helix. The entire collage is set against a background of a blue sky with wispy white clouds.
